Any Democrat on a Democratic Platform.

The News Leader agrees with the Lynchburg News that Virginia should lead the South in the next presidential fight. "So say we all!" but would be glad to know in advance whether or not the News Leader will stand to the colors no matter what Democrat is asked to carry them? Will the "fundamentals" adopted by the brethren in convention assembly become again the fundamentals of our worthy contemporary?—Buckingham Times

A frank question calling for a frank answer. The News Leader would refuse to support or advise any of its readers to support Wm R. Hearst on any kind of platform because we believe him to be a bad and weak and dangerous man. We would try to elect any decent Democrat who might be named as the party candidate for president, which includes Mr. Bryan, unless he should insist on a platform for government ownership of railways and the initiative and referendum. We could not swallow these nor ask anybody else to do it. Supporting Mr. Bryan, we would feel that we were enlisted in a hopeless cause, but we would do what we could.

In brief, any Democrat on a Democratic platform, would command the services of the News Leader. Is that declaration broad enough for the Buckingham Times? And how does that contemporary feel on each of the above propositions? Would it swallow Hearst or the railroad ownership or initiative and referendum?—Richmond News Leader.

"Any Democrat on a Democratic platform" is "broad enough" provided a Convention of Democrats is allowed the privilege of making the platform and naming the candidate and not a dissatisfied or disgruntled minority of one or more. We in no sense admire Mr. Randolph Hearst but if the Democrats select him as leader we are sure to follow. The Government in our opinion already owns enough and ought not to enter upon the railroad business. The "initiative and referendum" is a kind of a bugaboo of which we have thought little and care less.

Mr. Bryan is beyond question the foremost citizen of his country as well as the ablest member of his party, and yet we do not believe it would be wise to nominate him.

While on the subject we are going to say that Senator Daniel is our first choice and Governor Glenn of North Carolina, our second Watterson may be right however in saying that no one "who wore a gray jacket will ever be President." We hope he is mistaken.

Mr. Tucker says he is busy with the Exposition and no time to listen to the buzzing of a Gubernatorial bee. One step at a time, one duty and then another. The exposition closes in December. The roll for Governor will follow soon.

One of the Firgureheads.

There are various and sundry rumors in the air just at this time, that seems to me should cause the thinking people of the county to call a halt, and consider what is their duty, and what should be done to protect the interests of the citizens of the county. There is a report in circulation that a county ticket has been made to fill all the offices of the county, and as soon as they are elected the Board of Supervisors will lay a levy of ten thousand dollars to build a High School building at Appomattox and will raise the salaries of the county officers. It is also stated that it is desired that a man should be sent to the Legislature, who wrote and urged our Representative to defeat the road bill, made and adopted in mass meeting held in the court house in pursuance of a notice regularly promulgated. If these be facts, is it not time that the thinking people were awakening and taking a stand? You owe it to your country and to yourselves. Many citizens of the county are destitute of a shelter under which their poor children can stick their heads to get any benefit from the money for which we are taxed. The trustees saving no money in hand to build school houses. Then think of building a ten thousand dollar school house. For whom? Not for the poor! How many children in the county are able to pay board and attend that school? The act was passed to benefit the poor.

Then as to salaries of county officers. They have not been reduced since the officers have been elected. They knew before their election exactly the salaries they were to get, and why should it be changed now. How many men in the county who labor day in and day out and at the end of the year does not have half as much as one of the officers get.

Last, but not least, the idea of sending a man to the Legislature who says unmistakably he knows better the wants of the people than they do themselves, is simply preposterous. The very name tells you better. Representative! The people's representative. As for my part I want no man in office who does not feel that he is a servant of the people, and not the people his servants. Follow the lead of the good people of Pittsylvania and come together at your precincts and talk the matter over, you have made no ticket, and do your duty. You have plenty of time. Take the stand like men and don't say that it is useless to try. As long as you feel that way you will never do anything, and will never be of any service to your country.

SIMPLY A FIGUREHEAD.

A Mineral Water that Defies Drugs
NATURE'S GREAT BLOOD TONIC
The recent drug exposures in this Country have proven to all that deadly poisons and stimulants lurk in many Patent Medicines. You never know when you might be taking some of that class.
Nature has made ample provision for restoring vigor and vitality to humanity, and the public, as well as doctors, resort to Natural Remedies, when all others have failed.
Are you troubled with **Dyspepsia, Nervousness, Malaria, Kidney or Bladder Trouble, Chronic Diarrhoea or Dysentery,** and above all, that dreadful disease **Scrofula,** which has almost baffled human skill, or **Diseases peculiar to Females?**
Piedmont-Bedford Concentrated Iron & Alum Water
Is Nature's Remedy for Nature's Ills. Yes, when you consider that disease comes from impoverished or run down conditions of the system, this Natural Mineral Water furnishes the system what it needs.
The analysis of this Water, shown on the bottle, tells you what **Nature thinks you should take when sick,** and the doctor who reads it will agree.
Do you think the grouping together in this Water of 17 different minerals, which are recognized by medical writers as **most powerful blood tonics,** could have been accidental? Reason answers, NO!
An 18-oz bottle of Piedmont-Bedford Concentrated Iron and Alum water contains all the minerals of 25 gallons of the average natural water—Then **why buy a barrel of water when you can get a bottle of minerals at the trivial cost of one dollar.** The dose is a teaspoonful in a glass of your own spring water.
How this Water acts upon the system is not clearly known. It is judged mainly by its works. It has cured all the diseases numerated above, and many more, evidently through its action as a powerful **BLOOD TONIC.**
We have many valuable certificates, which we will be glad to mail, if you are interested.
